**ANIMAL
FREE**

UPPER

ProWeave is a water-repellent and breathable high tenacity polyester jacquard fabric made from recycled **RPET** plastic yarns and reinforced with TPU thread to increase resistance to abrasion and tearing. **Recycled RPET / BIO YARN.** The lacing wraps around the foot promotes maximum stability thanks to the lace loop fixed to the insole, it makes the lacing adjustment precise. **ANIMAL FREE** (no animal parts used)

LINING

PLASMAFEEL Lining in 3D fabric that keeps the foot constantly cool and dry thanks to the instantaneous absorption of sweat and its immediate dispersion outside of the shoe. Breathable, antibacterial, resistant to wear and abrasion.

INSOLE

FRESH -INSOLE - Made from recycled materials. Thermoformed in dual-density polyurethane with a tear resistant multilayer fabric. High breathability and quick absorbing thanks also to a special puncturing in the forepart, for a foot that is always dry. Antistatic, antibacterial, anti fungus, the presence of activated carbon keeps the foot free from bad smells. Complete with shock-absorbing heel support to reduce impacts on the entire spine and arch support to ensure greater comfort.

SOLE

DUAL DENSITY PDU/PU - Injected midsole composed of BASF PUR Elastopan® recycled polyurethane foam granules, obtained from production waste material. It ensures the maximum comfort and the absorption of the impact on all surfaces. Polyurethane outsole, with an elevated grip, resistant to wear, oils and hydrocarbons. System of energy absorption on the heel. It leaves no mark on the surface.

LAST

The anatomical last of the injected sole, unlike removable insoles, is inalterable for the entire lifetime of the shoe. The Anatomic sole, following the natural morphology of the foot, provides a natural support to all its points, ensuring maximum comfort.

TOE CAP

CARBON CAP is an exclusive carbon fiber toe cap. In addition to being lighter, it guarantees a wider fit and better balance of the shoe for superior comfort. It is Metal free and guarantees thermal insulation at extreme temperatures superior to aluminum or steel toe caps, thus maintaining a constant body temperature. Toe cap certified according to EN ISO 22568-1:2019 requirements.

MIDSOLE

SHIELD TEX Non-metallic antistatic, flexible, anti-perforation fabric insole, built with several layers of high-tenacity fibres. Compliant with: EN ISO 20345:2022 CSA-Z 195-14; ASTM F2413-18.

ANTI-TORSION SUPPORT

COMPOSHANK Anti-torsion rigid ABS support. It is applied between the anti-perforation midsole and midsole, at the arch of the foot. It improves stability on stairs, where the support of the foot is not ideal.

ANTI-STATIC DEVICE

SILVER STRIP DISCHARGE (SSD) Conductive cotton tape with silver threads, positioned inside the upper and in direct contact with the foot. It is an extra Anti-static device, increasing and stabilizing the dispersive capacity throughout the life of the shoe.
