

POLYGARD S900 Full Facepiece Respirator

Finally Speaking Diaphragm into polyGARD

By incorporating a speaking diaphragm, clear communication is possible even while wearing a mask. It can be effectively used for giving work instructions between workers and for conveying urgent messages in emergency situations.

Exhalation Valve Activated Fit Checker

PolyGARD was the first in the industry to introduce a fit check function using an exhalation valve. Now, users can easily check and ensure the mask's seal status with a simple press of the fit check button.

Always Clear, Anti-Fog Coated Visor

Anti-fog coating on the inner visor surfaces; enhanced breathability with cantilever type big size exhalation valve

Six Straps with Cradle for Comfort

Designed with six head straps that efficiently distribute pressure and a head cradle that reduces interference between hair and mask straps, it ensures comfort even during extended wear.

Premium Quality with Affordable Price

polyGARD S900 series respirator has proven face seal design to provide perfect fit for most of worker's faces with three sizes: Medium, Large and Xtra Large(M/L/XL)
